Richer Education

INSPIRATION-LEARNING-FUN

Why choose our workshops?

Cutting-edge technology

- Our workshops feature the latest on humanoid robotics and programming

STEAM integration

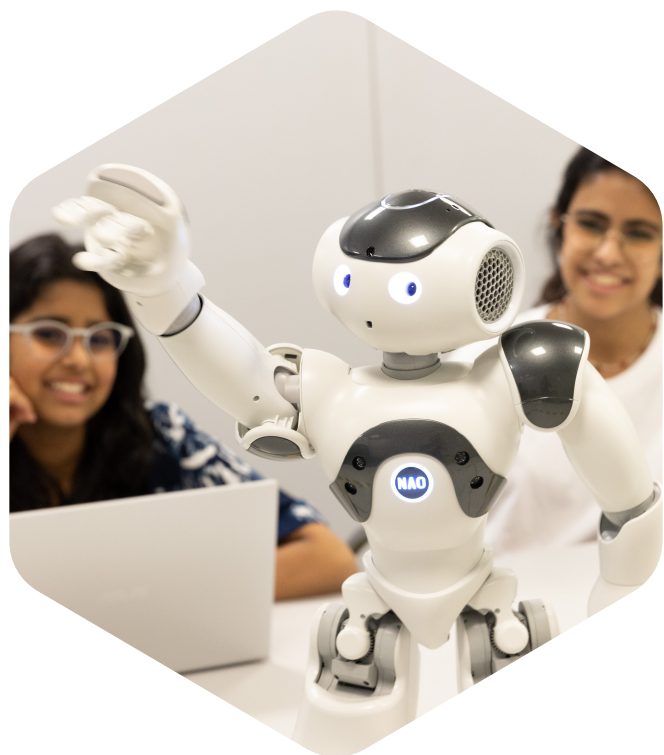

- Our curriculum integrates with STEAM (science, technology, engineering, arts and mathematics) principles

Future-ready skills

- Students will learn coding, problem-solving and critical thinking while having fun

About our workshop

- Workshops available in 90 minutes sessions (maximum three sessions per day)
- Maximum of 20 children per workshop
- We provide all equipment
